# Web Developer Ref: CRplc\_0143\_WEB

#### The Role

Due to expansion, we are seeking a Web Developer to join our Marketing team. This is a great opportunity to join a growing company in a high tech market.

Reporting to the Group Marketing Manager, you will be responsible for PHP/MySQL web development in a LAMP environment. You will be involved in the on-going development of our existing websites as well as development of new sites.

You will also be involved in usability and on-page conversion rate optimisation and back-end systems development. Key technologies include MySQL, PHP5,, Linux, Apache, HTML, CSS, Javascript, JQuery, etc.

The role will be based in our head office in Hunmanby, North Yorkshire.

### **About you**

- You will either have a 2.1 or above degree in an IT-related subject, or will have equivalent technical experience.
- You will be experienced with PHP/MySQL development.
- You will have a working knowledge of usability and on-page conversion rate optimisation.
- You will work with the Marketing department to devise new ideas to target new business
- You will be able to demonstrate a disciplined approach towards systems development.
- You will be able to analyse website traffic to recommend and implement improvements
- Strictly follow company policies and procedures
- You will have a passion for IT and be excited about joining a market leading business

#### The Person

We are looking for a highly motivated individual who has the desire to achieve. You must have excellent interpersonal and communication skills at all levels.

The right candidate will need to be able to demonstrate a proven track record and have excellent references. Experience of PHP/MySQL development is essential.

This is an exciting opportunity for a Web Developer to join an ambitious company with well-structured development plans. We are a growing company and are looking for employees who are seeking an opportunity where they can make a difference and build a career within a highly successful and fast paced business.

#### Remuneration

The salary for this position is dependent upon experience and is within the range of £15k – 25k.
